## PROFESSIONAL SUMMARY

IT Graduate with a strong foundation in software development and full-stack web technologies. Experienced in building responsive applications using **Next.js, React, TypeScript, MongoDB**, and implementing **CI/CD pipelines** with Docker. Skilled in **RESTful API development**, payment integration, and cloud deployment. Passionate about delivering user-focused, scalable, and high-performance solutions in collaborative Agile environments.

## PROFESSIONAL EXPERIENCE

### Python Developer Intern

*The Perfect Resume – Sydney* | Apr 2024 – Jun 2024

- Developed automation tools in **Python** to dynamically generate resumes based on job descriptions.
- Utilized BeautifulSoup, Tkinter, and OpenAI API for data parsing, UI scripting, and AI-powered content generation.
- Built resume enhancement scripts using GPT for personalized job-specific content.
- Collaborated within an Agile team, using GitHub and Jira for sprint tracking.

### Full Stack Developer

*Goodwood Community Website* | Jan 2025 – Present

- Developed a community website(Frontend and Backend) using Next.js, TypeScript, Tailwind CSS with responsive UI.
- Implemented MongoDB for data management and Cloudinary for image hosting.
- Integrated RESTful APIs, Stripe for payment processing, and Nodemailer for email automation.
- Deployed on Hostinger VPS with focus on accessibility, performance, and SEO optimization.

## PROJECTS

### Full Stack Developer – Airbnb Clone

Aug 2024 – Oct 2024

- Designed and implemented an end-to-end web application using React, Node.js, Express.js, and MongoDB.
- Built core features: user authentication, property listing, booking system, and responsive design.
- Deployed via Render, ensuring fast performance and uptime.
- Integrated RESTful APIs and handled edge cases using asynchronous calls.

## TECHNICAL SKILLS
